EDUCATION

BACHOLOAR IN COMPUTER SCIENCE
2022 GPA 4.17/5
King Faisal University

SKILLS

TECHNICAL: HTML, CSS, JavaScript
PHP, BootStrap, Python, Java, SQL
(MySQL), User Experience/User Interface
(UX/UI), Machine Learning, Git

SOFT: Teamwork, creative, adaptability,
problem solving

LANGUAGES: Arabic (native) and
English (excellent written and verbal
communication)

CERTIFICATIONS

- Google UX Design
- NVIDIA Fundamentals of Deep Learning
- Data Scientist and Artificial intelligence
Engineer course

AWARDS

- 14th Local Programming Contest
- AI Club - Internet of Things section as a
Speaker
- Artificial Intelligence Exhibition
- Game Development using CONSTRUCT3
- Getting Started with IoT using Arduino

EXPERIENCE

DATA SCIENTIST

**Ministry of Commination and Information Technology | Riyadh | May
2021 – Oct 2021**

- Perform data preprocessing, cleansing, and feature engineering tasks to ensure data quality and accuracy.
- Communicate findings and insights effectively to both technical and non-technical stakeholders through data visualizations, reports, and presentations.
- Learned how to develop Machine Learning frameworks to train models to make accurate predictions.
- Experience with SQL charts & Python to solve problems that are related to decision making.

GRADUATION'S PROJECT

King Faisal University | Alhassa | Jun 2021 – Jun 2022

Project: How to process a robust detection of automobile's plates image recognition

- Combining Machine Learning to image process to provide feedback without much human intervention by utilizing Python and MySql for storing data in a database.
- Object detection/tracking/quantization, and image categorization/denoising, and optical character recognition to recognize the automobiles' plates.
- Developed a website by using HTML, CSS (Bootstrap), JavaScript, and PHP, as an interface for the project
